CCRE

Annual Energy Leaders Roundtable

Hockley Valley Resort,
Orangeville, Ontario

WELCOME

On behalf of the Council for Clean and Reliable Electricity and our partners, welcome to the 2015 CCRE Annual Energy Leaders Roundtable.

The intent of the conference is to bring together leaders in the energy industry for discussion on issues that are important for today and the future. There will be presentations at the beginning of each session but it is expected that the days' events will provide for lots of open discussion and networking amongst the participants.

We are pleased to have brought together high caliber speakers and participants and look forward to the discussions from the sessions including:

- Public Opinion and the Energy Sector
- Aboriginal Relations in Energy Sector Development
- Business Risk in Regulated Infrastructure
- Distributed Energy and the Grid
- The Politics of Energy

I would like to thank our event partners: The Ivey Energy Policy and Management Centre, Richard Ivey Business School, University of Western Ontario and the Waterloo Institute for Sustainable Energy, University of Waterloo. As well, I would like to thank our sponsors for their support: Ivey Energy Policy and Management Centre, KPMG, Gowlings, Power Workers' Union, Hatch and Innovative Research Group.

The Council is a group of volunteers who have an interest in promoting open debate about energy issues. We do not represent a particular interest group and attempt to bring together a broad range of stakeholders who share an interest in good public policy.

In particular, I would like to thank Jan Carr, Sean Conway, Guy Holburn, David McFadden, Ian Mondrow, Paul Newall and George Todd for their leadership in making this roundtable possible.

Glen Wright, Chairman

thank you to our sponsors

AGENDA

WEDNESDAY APRIL 22

5:30 pm **Reception** *Montclair Foyer*

6:30 pm **Welcome Remarks**
Glen Wright, Chairman, Council for Clean & Reliable Electricity

Keynote Dinner Speaker
Greg Lyle, President, Innovative Research Group

Public Opinion Trends

7:00 pm **Dinner** *Montclair Meeting Room C and D*

THURSDAY APRIL 23

7:00 am **Breakfast Buffet** *Restaurant 85*

8:00 am **Registration** *Aida Foyer and Meeting Room (Lower Level)*

10:00 am **Break** *Aida Foyer*

10:30 am **Session Six: Roundtable Wrap-up Review – Reflecting on Our Discussions**
Rapporteur: **Ian Mondrow**, Partner, Gowlings, Member CCRE

11:15 am **Closing Remarks**

Noon **Adjourn and Traveller's Lunch**

EVENT PARTNERS

THE COUNCIL FOR CLEAN & RELIABLE ELECTRICITY

www.thinkingpower.ca

The Council for Clean & Reliable Electricity (CCRE) is a federally incorporated non-profit organization that was formed by a group of volunteers to provide a platform for open public dialogue and a solutions-oriented approach to the challenges of the energy sector. Representatives from universities, public and private sector business leaders, and labour have collaborated to broaden the public debate on energy issues. The Council has organized conferences on distributed generation, biomass, coal and nuclear, as well as public sector governance in the electricity sector, and annually hosts the CCRE Energy Leaders Roundtable. The organization regularly publishes the CCRE Commentary that presents reasoned opinions and points of view about significant and timely issues relevant to the electricity sector.

Council Members

Glen Wright, Chairman	Les Horswill	Ian Mondrow	Karen Prentice	George Todd

Sean Conway	Allan Kupcis	Jatin Nathwani	Ron Stewart	
Murray Elston	David McFadden	Paul Newall	Karen Taylor	

THE WATERLOO INSTITUTE FOR SUSTAINABLE ENERGY

<http://wise.uwaterloo.ca>

The Waterloo Institute for Sustainable Energy (WISE) was established at the University of Waterloo in 2008. The Institute comprises more than 95 plus faculty members with graduate students and postdoctoral fellows working as multi disciplinary research teams across Engineering, Science and Environment. The Institute provides a focal point for energy research at Waterloo and creates the best possible research platforms for faculty to test their ideas, engage with their peers, and partner with external organizations to accelerate the pace of research, development and deployment of practical solutions.

Research initiatives developed at WISE are of an interdisciplinary nature – spanning theory and experiment – encompassing a broad range of expertise across several faculties and departments. In a short period of five years, WISE has grown to become Canada’s largest concentration of researchers in academia devoted to sustainable energy. The Institute has created positive relationships with senior energy leaders from all sectors and has generated significant opportunities for its members to advance energy research. WISE continues to intensify communication and outreach programs to share the knowledge created and to cultivate energy literacy. WISE – and the University of Waterloo – are becoming internationally recognized as leaders in addressing the global energy challenge.

IVEY ENERGY AND POLICY MANAGEMENT CENTRE, UNIVERSITY OF WESTERN ONTARIO

www.ivey.ca/energy

The Ivey Energy Policy and Management Centre is the centre of expertise at the Ivey Business School focused on national energy business issues and public policies. It conducts and disseminates first class research on energy policy, and promotes informed debate on public policy in the sector through supporting conferences and workshops that bring together industry, government, academia and other stakeholders in a neutral forum. The Centre draws on leading edge research by Ivey faculty as well as by faculty within Western University.
